Compliance Certification
Conflict Minerals

Bondhus Corporation has reviewed our operations in light of the recently enacted legislation (HR4173) requiring publicly traded manufacturing companies to report the use of "Conflict Minerals" to the Securities and Exchange Commission.

This review of our operations and associated supply chain has determined that no "Conflict Minerals" are used by Bondhus in the manufacture of our products.

If you require further information regarding this issue please contact me directly at 763-271-1175 or via e-mail at lshonyo@bondhus.com.

Regards,

Lynne Shonyo
QA/Safety Administrator
